

PRODUCT SAFETY RECALL

Product Safety Recall Notice: Castrol Oils Used in Two Stroke Engines

Example of Batch Number & Location

Castrol is recalling some of its two-stroke (2T) product, sold in Europe from 3 September 2012. We believe some of this product may be contaminated with water and may cause engine seizure.

Whilst Castrol 2T products have never been recommended for use in Micro Light 2-stroke engines, we have been made aware some customers may purchase the product for this use. Castrol is recalling the product as a safety precaution. Castrol would like to reiterate that customers should only use approved lubricants for their engines.

[See full list of products and batch numbers below.](#)

WHAT TO DO

If this product was purchased from 3 September then Castrol recommends you drain down the engine, thoroughly flushing, check the engine manufacturers manual and replace with an approved product. Affected batch numbers and locations can be found below

CONTACT DETAILS

If you have any queries please contact Castrol on **0800 046 9260 (UK)** or **1800 932 600 (Ireland)**, Castrol apologises for any inconvenience caused by this oil not meeting our usual rigorous product quality standards.
